SUMMARY

Computer Science graduate (B.Sc., University of Mumbai, 2025) with hands-on experience across Artificial Intelligence, Machine Learning, Data Science, and Cybersecurity, built through internships across India and France. Recent focus on Agentic AI and AI agent architecture through an IBM SkillsBuild internship, reinforced by 19+ industry certifications from Google, IBM, Deloitte, and Accenture.

SKILLS

Languages: Python, C

AI & Machine Learning: Machine Learning, Deep Learning, Agentic AI, Multi-Agent Systems, Prompt Engineering, Generative AI

Data: Data Analytics, Data Visualization, Exploratory Data Analysis, MariaDB, SQL

Security & Systems: Cybersecurity Fundamentals, Malware Detection, Robotics, UAV Systems

Professional: Business Development, Applied Research, Cross-Cultural Collaboration, Leadership

EXPERIENCE

Agentic AI / AI Agent Architect Intern – IBM SkillsBuild × CSRBOX, India *Jul – Aug 2025*

- Completed a project-based Agentic AI curriculum, progressing from foundational concepts to independent agent design.
- Designed and prototyped AI agent workflows applying multi-agent system principles under mentor guidance.

Research Intern, Artificial Intelligence and Robotics – Avignon University, France *Jun – Jul 2024*

- Contributed to international research in AI and robotics, applying AI methods to aerial robotics for surveillance.

Data Science Intern – Unified Mentor Pvt. Ltd., Gurugram, India *Mar – Jun 2024*

- Performed data cleaning, exploratory analysis, and model evaluation on structured datasets under mentor supervision.

Data Science Intern – Oasis Infobyte, India *Apr – May 2024*

- Built predictive models and delivered data visualization projects using Python-based data science libraries.

Additional Internships: Machine Learning Intern (Bharat Intern); AI, Machine Learning, Deep Learning, Data Analytics & Python Intern (Pantech Prolabs India); Business Development & Research Intern (Younity.in) *2023 – 2024*

EDUCATION

Bachelor of Science in Computer Science – University of Mumbai, India *2022 – 2025*
CGPA: 8.35 / 10

PROJECTS

- SkyNet** – Autonomous drone system for indoor navigation, object detection & inventory automation
- Customer Support AI Agent** – Google AI Agents Capstone project
- UAV-Based Object/Face Detection** – obstacle avoidance & tracking using the Crazyflie platform
- Cybersecurity Toolkit** and **MD5 Hash-Based Malware Detection Tool**

CERTIFICATIONS

19+ certifications in AI, Data Science, and Cybersecurity, including: 5-Day AI Agents Intensive Course (Google), From Learner to Builder – Become an AI Agent Architect (IBM SkillsBuild), Cyber Job Simulation (Deloitte), Software Engineering Job Simulation (Forage), Technology Apprenticeship Job Simulation (Accenture). Full list available on request.

Additional: IELTS Academic – Overall Band 7.0, C1 • Research project on aerial robotics (*Ornithopter*), University of Mumbai • AIESEC volunteer, incoming global exchange coordination
